

European Society of Veterinary Ophthalmology ESVO WEBINAR SERIES

Brian C. Gilger

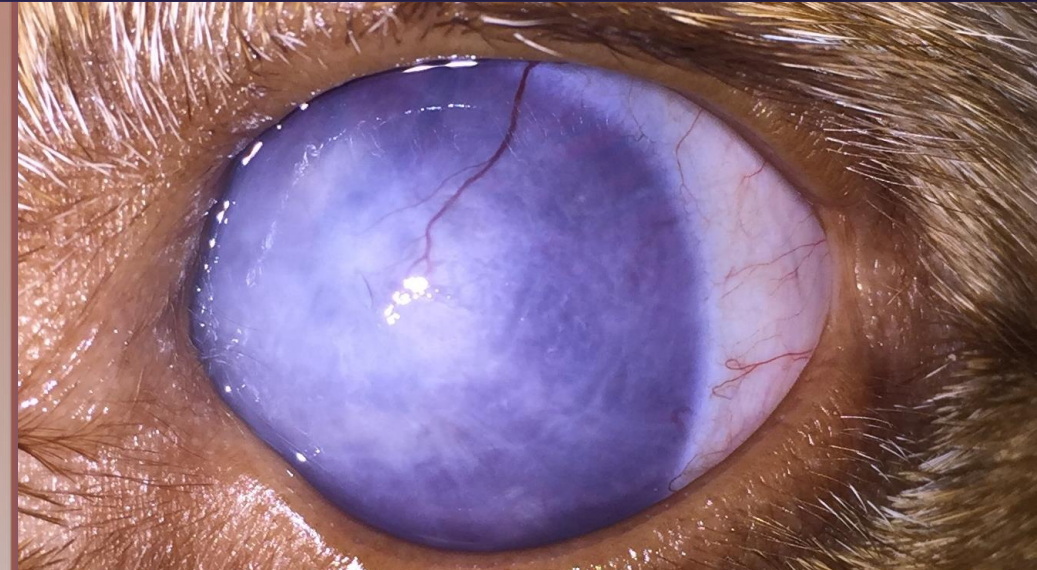

DVM, MS, Dipl. ACVO, Dipl. ABT
Professor of Ophthalmology

North Carolina State University, USA

Glaucoma is a challenging disease that often leads to blindness.

In this lecture, we will review recent advancements in the treatment of glaucoma, first reviewing new topical medications followed by discussing advances in surgical treatment, including laser therapies and implants.

We will conclude by discussing current research on treatment of glaucoma using gene and/or cell therapy.

Advancements in medical and surgical treatment of glaucoma
