**SCOTTISH VET REFERRALS**

**About Us**

Scottish Vet Referrals is a dedicated, independent, referral centre located in the beautiful surroundings of the Inverness Campus in the heart of the Scottish Highlands

We provide acupuncture, cardiorespiratory, CT scanning, dermatology, BVA/KC eye testing, internal medicine and oncology, ophthalmology, orthopaedic surgery and soft tissue surgery services; delivering dedicated expertise with state of the art specialist equipment in a custom-designed facility. An extension is planned to meet our growing caseload.

We take pride in offering high standards of veterinary care in a warm and welcoming environment.

**The Role**

The position involves the management of a wide and varied medical and surgical caseload. You will also provide support and advice to our referring veterinary surgeons. You will have access to slit-lamp biomicroscopy, indirect ophthalmoscopy, direct ophthalmoscopy, gonioscopy, tonometry, microsurgical kit, operating microscope and phacoemulsification unit. You will also have access to DR x-ray, 64-slice CT and in-house laboratory.

As well as having the support of 2 ophthalmology certificate holders, of which one is an eye panellist, you will be working alongside a supportive, experienced nursing team.

Ideally, the candidate will hold a certificate and be looking to develop their diagnostic and surgical skills but we would consider someone studying towards their certificate. Most importantly, the individual must be enthusiastic, have a caring attitude and be a good communicator and supportive colleague.

Full time preferred but part time considered.

You will be required to take part in a shared out-of-hours rota which includes weekends and bank holidays.
